PROFESSIONAL SUMMARY

BCA graduate and junior software developer with hands-on experience building web applications and project-based development work. Skilled in React.js, Next.js, JavaScript, TypeScript, Node.js, and responsive frontend development, with familiarity in REST APIs, authentication, databases, and AI-powered features. Experienced in developing reusable components, interactive interfaces, and application features across academic and independent projects. Seeking a junior software, frontend, or web development opportunity.

EXPERIENCE

Web Developer – Project-Based | Rizz

Software Development and Training Company

Oct 2025 – Apr 2026

Edusphere Project

- Worked on Edusphere, an e-learning platform project, developing responsive user interfaces using React.js, Vite, and Tailwind CSS.
- Built course browsing and course detail interfaces, along with authentication-related screens.
- Used React Router for client-side navigation and created reusable UI components to support a consistent interface.

Freelance Web Developer | Heal Sugar

Shopify Store Customization

2026 – 3 months

- Customized Shopify storefront elements using Liquid, HTML, CSS, and JavaScript.
- Contributed to responsive UI improvements, theme customization, and product presentation.
- Helped refine storefront usability and align its presentation with brand requirements.

PROJECTS

PORTFI – Interactive Portfolio Generator

GitHub | Live Demo

Next.js, React, TypeScript

- Developed a portfolio builder featuring a multi-step form and real-time portfolio preview.
- Implemented responsive preview behavior using React state, refs, ResizeObserver, and CSS.
- Created a client-side export feature that downloads the generated portfolio as standalone HTML.

DATIE – Secure Dating Platform

GitHub | Live Demo

Next.js, React, TypeScript, Firebase

- Developed application features using Firebase Authentication, Firestore, Redis, and Google Cloud Vision AI.
- Implemented OTP-based authentication workflows and image moderation using Vision SafeSearch.
- Worked on chat safety features, including profanity filtering and detection of potentially malicious links.

TECHNICAL SKILLS

Programming	Python, JavaScript, TypeScript, SQL, C, C++
Frontend	React.js, Next.js, HTML5, CSS3, Tailwind CSS, React Router
Backend	Node.js, Express.js, Next.js API Routes, REST APIs
Databases	PostgreSQL, MongoDB, Firebase Firestore, Supabase
Authentication	JWT, Firebase Authentication
Cloud and AI	Firebase, Vercel, Google Cloud Vision AI, Generative AI Fundamentals
Tools and Concepts	Git, GitHub, Redis, Docker Fundamentals, Kubernetes Fundamentals, OOP, DBMS, Data Structures

EDUCATION

Bachelor of Computer Applications (BCA)	2026
SES College, Sreekandapuram – Kannur University	CGPA: 7.79/10
Higher Secondary – Computer Science	2023
Sacred Heart HSS, Payyavoor	80.5%

CERTIFICATIONS

- The Basics of Google Cloud Compute – Google Skills
- Introduction to Generative AI for Software Development – Coursera
