PORTFOLIO

PROFESSIONAL SUMMARY

Entry-level Software Engineer and BCA graduate with hands-on experience building modern web applications using React, Next.js, Node.js, Express.js, and Python. Experienced in frontend development, REST APIs, authentication workflows, databases, and AI-powered application features. Strong foundation in OOP, DBMS, Git, and software development with a focus on building secure, responsive, and user-focused applications.

EXPERIENCE

Freelance Web Developer — Heal Sugar 2026 — 3 Months
Shopify — Liquid — HTML — CSS — JavaScript

- Contributed to the development and customization of a Shopify e-commerce storefront for Heal Sugar.
- Implemented responsive UI improvements, theme customization, product presentation, and frontend enhancements.
- Adapted storefront components to align with brand guidelines, usability requirements, and e-commerce objectives.

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript, SQL, C, C++
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, Next.js API Routes, REST APIs
Databases: PostgreSQL, MongoDB, Firebase Firestore, Supabase
Authentication & Tools: JWT, Firebase Authentication, Git, GitHub
Cloud & AI: Google Cloud Vision AI, Generative AI Fundamentals, Firebase, Vercel
Additional: Redis, Docker Fundamentals, Kubernetes Fundamentals, OOP, DBMS, Data Structures

PROJECTS

PORTFI — Interactive Portfolio Generator GitHub — Live
Next.js — React — TypeScript — Tailwind CSS — Framer Motion

- Built an interactive portfolio generator with a multi-step form and real-time portfolio preview.
- Implemented responsive preview scaling using React state, refs, ResizeObserver, and CSS.
- Developed a client-side exporter that generates downloadable, self-contained HTML portfolio files.

DATIE — Secure Dating Platform GitHub — Live
Next.js — React — TypeScript — Firebase — Firestore — Redis — Google Cloud Vision AI

- Developed security-focused application features using Next.js, Firebase, and server-side API routes.
- Implemented OTP-based authentication workflows and integrated SMS verification services.
- Integrated Google Cloud Vision AI SafeSearch for automated profile-image moderation.
- Developed chat safety features including profanity filtering, malicious-link detection, and user blocking.

EDUSPHERE — E-Learning Platform Frontend Prototype Academic Team Project
React — Vite — Tailwind CSS — React Router

- Contributed to a responsive e-learning frontend with course browsing, course details, and authentication UI.
- Developed Student Module interfaces and reusable React components with client-side routing.

EDUCATION

Bachelor of Computer Applications (BCA) 2026
SES College, Sreekandapuram — Kannur University CGPA: 7.79 / 10

Higher Secondary Education — Computer Science 2023
Sacred Heart Higher Secondary School, Payyavoor Percentage: 80.5%

CERTIFICATIONS

The Basics of Google Cloud Compute — Google Skills
Introduction to Generative AI for Software Development — Coursera
